

TC1 05

IPX4 CE

CONNECT series is a mixed flow inline exhaust fan in various sizes. Specially designed for installing ventilation systems with high pressure, strong airflow and low noise levels.

Energy Saving motor with ball bearing for long time operation. Removable body for easy cleaning, without the need to move the ducts.

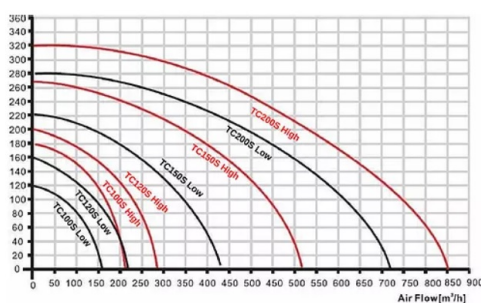

Mix Flow Inline Blower CONNECT are powerful enough to ventilate multiple areas with a single unit for one or more rooms of varying sizes

- **Ball bearing motor**
- **Auto cut-off fuse built in motor**
- **Silicon steel lamination**
- **Pure copper winding**

| Technical specification | CONNECT TC120S |
|------------------------------------|---------------------------------|
| Voltage (V)/ (Hz) | 220 - 240/ 50Hz |
| Power (W) | 35 |
| Air volume Lo/Hi (m³/h) | 220/ 265 |
| Noise Level Lo/Hi (dB) (A) 3m | 47/ 51 |
| Connection Diameter (mm/ inch) | 120/5" |
| Protection | IPX4 |
| Input/ Output Ducted Diameter (mm) | 121 (for 125 mm ducting tubing) |
| Electrical Classification | Class 1 |
| Indoor/ Outdoor Suitability | For Indoor Use Only |
| Climatic Classification | Tropical Condition |
| Gross Size (mm) | 270x180x236 |
| Net Size (mm) | 262x177x234 |
| Gross Weight (kg) | 1.99 |
| Net Weight (kg) | 1.78 |
